Your-Floor[®] **TrakMat**

IMAGE REQUIRED

Your-Floor® TrakMat is the ultimate ground protection solution for heavy equipment and machinery. Made from high-density polyethylene and featuring a unique non-slip traction surface, TrakMat offers unbeatable support for vehicles weighing up to 60 tons. Whether you're working on a construction site, mining operation or outdoor event, TrakMat provides unparalleled protection against environmental damage caused by heavy foot traffic or equipment.

These compression-molded mats are built to last and are as tough as they come. As the original and genuine US-manufactured bog mats, TrakMat has been supporting Australian industries since 2003. With its 100% recyclable polyethylene material and light green color, TrakMat is an environmentally friendly solution that blends in well with natural surroundings.

USES

Construction sites

Mining operations

Outdoor events

Utility maintenance

Emergency response
