# IMAGE REQUIRED

Your-Floor® HTech Heavy Duty Ground Protection Mats Designed to withstand loads up to 80 tonnes, the Pro-Tech Mats provide the ultimate temporary access and ground protection solution for moving and operating plant equipment and personnel over soft or sensitive ground.

Exceptionally Durable & Flexible  
Constructed with 12mm thick high-density polyethylene (HDPE), Pro-Tech Mats are almost indestructible, weighing only 36 kgs. The built-in handles

facilitate easy moving and installation.  
Slip-Resistant Surface The meticulously engineered surface design offers maximum grip while dispersing mud when vehicles traverse. This design minimizes sideways movement or slippage, ensuring optimal forward traction.

Semi-Permanent Specialist Applications  
Connection options are available for more permanent situations, steep terrain, and heavy tracked equipment.
